Description. Ornate Uromastyx are one of the pretties lizards on earth. These lizards originate from Yemen and Saudi Arabia and are well adapted to hostile desert environments. All of the Ornate Uromastyx that we have in stock are eating very well on a wide variety of greens and chopped veggies. This lizard has become quite difficult to get a hold of so don't miss your opportunity to purchase this one. This is from a CBB Blue Male Product ID OUJM07
